-----"Garfield & Company, v.1: Fish To Fry"Based on the work of Jim Davis(Papercutz, 2011)-----It is one of my great shames in life that my kid is so into that obnoxious cartoon cat, Garfield (I was always a "Calvin And Hobbes" kinda guy, myself...) Regardless, she really likes Garfield and was thrilled to see these cartoon anthologies based on the new Garfield Show TV series, which uses CGI animation to bring Garfield's world to life. These books use stories from the series, with adapted screenshots as artwork in a graphic novel format that allows three stories to be collected in each volume. This first book has the episodes "Family Snapshot," "Nice To Nermal" and "Fish To Fry," all of which I am happy to report are better written and more engaging than that dreadful TV series they had on in the

1990s... More important than what I think is what my kid -- the Garfield zombie -- thought: she dug it. Tore through 'em, read 'em again, asked when the next volume was coming out. So there you have it. Phooey on you, Dad. (Joe Sixpack, ReadThatAgain.com kids book reviews)

The starship Papercutz flies through print and TV, this time, with Garfield taking centre page in "Fish To Fry". Volume One includes "Family Portrait", "Nice To Nermal", and the title "Fish To Fry". Family Portrait sounds like picture time at some households I have known, and is most certainly 'Garfieldish' as Garfield can be. Nice to Nermal can be best summarized as 'be nice to Nermal'...please. The last tale, Fish To Fry, is at best a teaser, and not the strongest in the book. The art is terrific, and the writing, I assume is under the supervision of industry stalwart, Mark Evanier, is crisp as always. My only concern is that three tales may be too many for the book. Either make it longer (64 pages), or go to 2 stories.

This book is super short not worth the money but definitely a good book I would recommend it to people who like comics
