This book is such a gem. I have read it completely through and still use it as my film-making reference book. I would recommend this book to any female, who has a desire to make their own films. This book will take you through the process step-by-step, with entertaining facts and tips throughout. The writing is very comical and not too serious. It's a fun way to learn about film-making to ultimately take action with your own film projects.

This is a wonderful book! It goes through all the basic techniques of film making from writing your script to camera angles to lighting, and gives great encouraging advice to future girl directors. There's even a little history at the beginning that tells about the woman directors from the past. I really enjoyed this book!! It's so much fun to read and is so encouraging! Any teens interested in movie making will love this book! I know I do.
