As a librarian, lâ ™m naturally a bit obsessed with reference books, and in particular, horror reference books. When I was too young to see horror movies, I could still read books about them,

and based on the plot description I would let my imagination do the work. For a good number of movies, lâ ™m sure the dread-filled images in my head were better than the actual movies turned out to be. So with that in mind, lâ ™m always on the lookout for new books about horror movies. And who doesnâ ™t love a good list book? My personal preference for horror is anything from the eighties, so lâ ™m branching out to see what I can discover with Modern Horrors: An A-Z of Horror Movie Reviews 2000-2015 by Scott Weinberg. For those not familiar, Scott Weinberg is a well established film critic writing for numerous websites. This book is an A-Z list of over 800 horror movies that were released in 2000 or later. First of all, thatâ ™s a lot of films covered. Itâ ™s a mix of independents, big budget offerings, and U.S. and international releases. The reviews are at least one page long, so youâ ™re getting more than a peripheral examination of each title, with some of the more interesting films earning longer discussions. The author has very strong opinions. Heâ ™s a critic; thatâ ™s his job. There are always going to be reviews that I donâ ™t agree with. How much you enjoy a movie is a matter of taste and everyone is entitled to an opinion, so I donâ ™t get up in arms if a movie that is horribly reviewed is one that I love. Weinberg is passionate and entertaining throughout and there is a good bit of humor, especially when covering the movies he clearly thinks are terrible. I feel the pain he must have gone through when watching terrible movies like I Know Who Killed Me and The Scorned. The reviews are never dry.
