Glannon Guide To Civil Procedure: Learning Civil Procedure Through Multiple-Choice Questions And Analysis, Third Edition

Synopsis

The proven Glannon Guide is a user-friendly study aid to use throughout the semester as a great supplement to (or substitute for) classroom lecture. Topics are broken down into manageable pieces and are explained in a conversational tone. Chapters are interspersed with hypotheticals like those posed in the classroom that include analysis of answers to ensure thorough understanding. Additionally, The Closer questions pose sophisticated hypotheticals at the end of each chapter to present cumulative review of earlier topics. More like classroom experiences, the Glannon Guide provides you with straightforward explanations of complex legal concepts, often in a humorous style that makes the material stick. The user-friendly Glannon Guide is your proven partner throughout the semester when you need a supplement to (or substitute for) classroom lecture. The material is broken into small, manageable pieces to help you master concepts. Multiple-choice questions are interspersed throughout each chapter (not lumped at the end) to mirror the flow of a classroom lecture. Correct and incorrect answers are carefully explained; you learn why they do or do not work. You can rely on authority; the series was created by Joseph W. Glannon Harvard-educated, best-selling author of, among other legal texts, Examples and Explanations; Civil Procedure, now in its sixth edition. The Closer poses a sophisticated problem question at the end of each chapter to test your comprehension. A final Closing Closer provides you practice opportunity as well as a cumulative review of all the concepts from earlier chapters. You can check your understanding each step of the way. More like classroom experiences, these Guides provide straightforward explanations of complex legal concepts, often in a humorous style that makes the material stick.

Book Information

Paperback: 560 pages

Publisher: Aspen Publishers; 3 edition (July 12, 2013)

Customer Reviews

This book is the best for understanding civ pro concepts. I finished law school in 2009 and have not been able to focus on taking the bar due to life issues, etc. Now as I prepare for July 2016, this book is invaluable! Especially since when I was in Law school, civ pro was not being tested on the MBE...now it is, so I needed books to help me prep for the MBE portion. This book is so awesome, I ordered numerous other glannon guides! Not disappointed with any of them!

Love this book. It isn't a hornbook. So, if you're looking for one - keep looking. What it is though, is a simple and concise breakdown of the black letter law combined with questions that test your knowledge on the concepts. I used it right before finals and it really helped me solidify my understanding of the topic. I definitely recommend this book for anyone who likes hypos/fact patterns to practice with. I will be purchasing this series for all other available courses going forward.

Excellent supplement for putting your knowledge of Civil Procedure to the test. I would not recommend this if you don't already have a good grasp on Civ Pro; great for review and solidifying knowledge before exams. Would definitely recommend and glad I purchased.

Am taking the bar in a state that does not offer reciprocity after having passed the bar 30 years ago. Am taking an online bar review course that I am very pleased with overall. However, the printed materials set forth a lot of rules but don't give another explanation to really get a gut feel understanding of the topic. Chanced across this series and they are the best. If I had to do it all over again, I could probably have passed the mbe by just working through this book along with the relevant "Examples" books. What is key here is that they don't just give explanations to questions but the book teaches the reasoning process so that you can answer questions when they come up on the exam (even if only practice for now!).

Not bad, questions could be a little more detailed and tied to specific topics. The topics are broad, which makes it kind of hard to select out the piece of a given text or casebook you're trying to review.

Great for improving your ability to take multiple choice tests and concisely explains the concepts in a way that is easy to understand.

There is no other hornbook a 1L need buy for Civil Procedure. This is it. Truly illustrative.

One of the best supplements I've had so far in law school. I typically read this guide before reading the main textbook and what a difference it made.
