# Atheisting 101: 10 Steps To Proper Atheisting

## Synopsis

In this short and easy to understand guide you'll learn all about atheism and how you should be atheistic. I'll discuss the 10 basic rules of atheistic and how to follow them properly, as well as the reasoning behind these rules. Many of them may seem silly, however these steps have been around for many generations and following them is the only way to be a true atheist. All proceeds from this book will be donated to the Atheist Republic nonprofit organization to help atheist authors to publish their books and have their voices be heard on a global scale. Thank you for your support.

## Customer Reviews

Short, sweet, and funny. I loved "The Bible in a Nutshell" so much that I had to read another book by Casper. I needed some good humor today and my needs were met. I wish my friends who still believe in imaginary friends would read some books written by atheists, but of course they can't because they fear that the devil would get them just like he got me. Seriously that is their reason for refusing to read anything written by a known atheist. I will have to ask them now if they think I eat babies because after all...potatoes.

Tongue-in-cheek funny. Light in tone but very serious underneath. A bit snarky too. Fun.

Too short. Not enough information. Topics could have been taken three levels deeper and would have still only been a novella.

Good read
